

A large group of people, including children and adults, are sitting in small wooden boats on a calm lake. The water and the air around the boats are filled with a massive swarm of small, brownish-yellow insects, which appear to be mayflies. The people are looking at the insects with interest and excitement. In the background, there are green trees and a clear sky. An inset image in the bottom right corner shows a close-up of a single mayfly, highlighting its long, thin body, large wings, and long antennae.
